Dear Customer

Welcome to our February bulletin. Last month we received one of our twice yearly visits by the British Standard Institute to audit our quality systems.

This audit was the first since we successfully completed the transition from BS EN ISO 9002 to the new standard BS EN ISO 9001:2000 back in July 2002. I am delighted to report that the audit went very well with no discrepancies reported.

On the sales front I am pleased to advise that Mr. Pete Hodgetts, one of our Internal Sales Engineers has been promoted to External Sales Engineer. Pete will be covering the South East territory and we wish him every success.

Yours sincerely  
Gary Brookes  
Managing Director
