

JUNE 2004

**PLEASE PASS TO YOUR
ELECTRICAL
DESIGN DEPT.**

Dear Customer

Welcome to our June bulletin.

This year seems to be flying past with only a few weeks to the longest day of the year, and I am reminded that the forthcoming holiday season approaches. Many of our customers already know that one of our principal suppliers is based in Italy, where it is traditional for industry to close for 3 weeks during August. This always causes some disruption to deliveries. Obviously, we try to forecast our requirements and inevitably we don't always get it 100% right. During this period, our Modification Centre and UK production facility are extremely busy manufacturing and modifying items normally sourced from Italy. It would, therefore, really help us if we could be given as much notice as possible of orders for special products or larger than usual quantities.

I am also pleased to welcome Mr. Steve Ellis to the Company as an External Sales Engineer for the South East. I wish him every success.

Yours sincerely
Gary Brookes
Managing Director

PRODUCT FOCUS

THE PRODUCT

This month we highlight a recent addition to our comprehensive range of Energy Monitoring products.

The KWH32342 is a low cost electronic kilowatt hour meter with electro mechanical digital display. The meter is ideal for cost centre energy monitoring and is fitted with a pulse output as standard.

FEATURES

- Class 1 EN 61036.
- Pulse Output.
- DIN 96 case.
- Large clear digits.
- Wide range of current transformer ratios.
- Very competitive price.

DELIVERY

Available from Stock.
