

OCTOBER 2005

# PLEASE PASS TO YOUR ELECTRICAL DESIGN DEPT.

Dear Customer

Welcome to our October bulletin.

This month I am delighted to announce that on the 1st of November 2005 Rayleigh Instruments Limited becomes the sole UK distributor for the Elko EP, range of relays.

This range includes electronic timing relays, monitoring relays, time clocks, lighting control relays and many other products which are produced at an ultra modern factory in the Czech Republic.

These products were previously distributed in the UK by Nortronics Limited with certain products appearing under the Foxtam brand name.

We are now able to offer these products direct from the manufacturer at what we consider very competitive prices.

If you would like to receive details, please complete the form overleaf.

Yours sincerely  
Gary Brookes  
Managing Director

## PRODUCT FOCUS

### ELKO TIMING RELAYS

Elko have a comprehensive range of electronic timing relays. Manufactured using surface mount technology the relays are housed in 17.5mm wide compact modular style enclosures. Each relay is individually tested throughout the production process, ensuring a top quality reliable product. Below we focus on two of the most popular timers in the Elko range.

### CRM91H

The CRM91H is a multi-function timer which is programmable for the following modes of operation:-

- On delay
