

# Ring Type / Class X / Medium Voltage

Special Order Current and Voltage Transformers (Full details on request)

## Measuring - Ring Type

- Plastic case or tape wound
- Fixing feet or busbar bracket
- Wide choice of physical dimensions and electrical parameters
- Class 0.5 or 1

## Protection - Class X Cast Resin

- Cast resin case
- With or without busbar bracket
- Wide choice of physical dimensions and electrical parameters
- Class X

## Protection - Ring Type

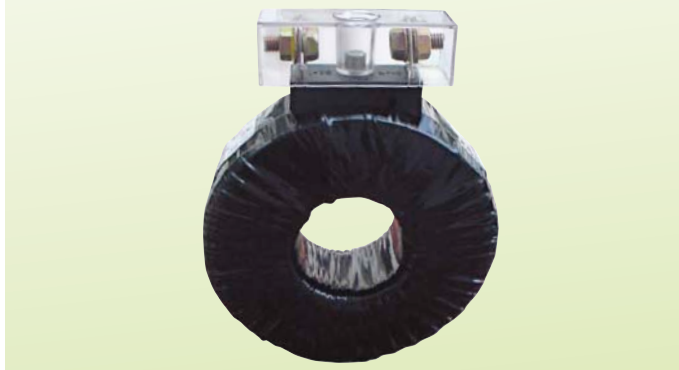

- Tape wound
- Fixing feet or busbar bracket
- Wide choice of physical dimensions and electrical parameters
- Class 10P5, 10P10, 5P10

## Medium Voltage - Current Transformer

- Cast resin case
- Up to 35kV
- Class 0.2, 0.5, 10P10, 10P15, 10P20, 5P15, 5P20
- Indoor and outdoor versions available
- Wide choice of physical dimensions and electrical parameters

## Measuring - Ring Type - High Accuracy

- Tape wound
- Fixing feet or busbar bracket
- Wide choice of physical dimensions and electrical parameters
- Class 0.2

## Medium Voltage - Voltage Transformer

- Cast resin case
- Up to 35kV
- Class 0.2, 0.5, 1, 6P
- Indoor and outdoor versions available
- Wide choice of physical dimensions and electrical parameters
